

FEEL THE LOVE
THIS FEBRUARY:

Trade in your **SCIO** or **QXCI** for an **INDIGO** & receive an **INDIGO Laptop for free.**

Our New Core i7 Quad Mobile Powerhouse

The Qii7 iNDIGO Computer introduces a new level of extreme "gaming style" notebooks. The new Core i7 Mobile CPU coupled with the nVidia GTS 250M 1GB Discrete Graphics card offers incredible system performance and stunning power. The High Screen resolution and crystal clear LCD will display your applications like you've never seen before on a notebook computer. There are many built in features which make this notebook series the perfect match for the new iNDIGO system.

Our Software Programmer uses this very same laptop and he has it juiced up with 8GB of Ram, a 500GB 7200rpm Hard Drive, and the 64bit version of Windows 7 Pro. If you know anything about programmers, they can really beat up a laptop with all the heavy duty work they do...David absolutely loves this laptop!

Go Qii7 if you want tomorrows technology today.
